An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barbara Gyure on 24 October 2003.

The application has been amended as follows:

In the claims:

Claim 40 as presented has been replaced with the following:

40. A method of producing a biologically active anti-angiogenic apomigren polypeptide, comprising:
- (a) inserting an isolated polynucleotide sequence encoding a biologically active anti-angiogenic apomigren polypeptide into a yeast expression vector, wherein the vector contains a multiple cloning site; and
 - (b) transforming an appropriate yeast strain with the vector of step (a) and maintaining the yeast strain under suitable conditions for the production of the biologically active anti-angiogenic apomigren polypeptide; thereby producing a biologically active anti-angiogenic apomigren polypeptide.

Claim 40 as written above represents the complete text of the claim, which had not been fully incorporated into the Image File Wrapper (IFW) file apparently due to a mishap during the scanning process at the USPTO. Barbara Gyure provided the missing text in the telephonic interview of 24 October 2003, which is reflected in the claim as written above.

Certain papers related to this application may be submitted directly to the Examiner by facsimile transmission at (703) 746-5155. NOTE: If Applicant does submit a paper by fax to this number, the Examiner must be notified promptly, to ensure matching of the faxed paper to the application file, and the original signed copy should be retained by Applicant or Applicant's representative. (703) 308-4242 or (703) 305-3014 may be used without notification of the Examiner, with such faxed papers being handled in the manner of mailed responses. Applicant is encouraged to use the latter two fax numbers unless immediate action by the Examiner is required, e.g., during discussions of claim language for allowable subject matter. NO DUPLICATE COPIES SHOULD BE SUBMITTED so as to avoid the processing of duplicate papers in the Office.
